Preparation is under way to structure in person worship at Zion. The goal is to conduct meaningful services while keeping members safe and secure. A complete set of guidelines will be released in the upcoming weeks.

Some of the issues to be finalized are:

- Attendance limitations to meet 'social distancing' requirements
- How to balance attendees between available services
- Wearing masks to protect others
- Best Practices for allowing singing
- Modifications to the service to limit contact between attendees
- How best to include communion at services
- How to clean and maintain a healthy facility

Expected actions by the end of June:

- Email, online and phone poll to determine your service preference
- Health Team meeting to organize the teams and determine methods
- Preparation of the facility to optimize separation and protect members
- Purchase of required supplies to address the requirements

Thank you
